

Manila 2004-2005 Multimedia Package

Multimedia package documenting our family trip to Manila. Mostly pictures and video, maybe some narrative. Overall sections:

- On the plane: the adventure of traveling with a 2-year-old and a 6-month-old
- Christmas: candid shots, “family pictures,” some video
- New Year’s: fireworks! Some video, other shots
- Random Encounters: all other pictures, with who-what-when-where info

Use the pictures themselves for backdrop/other visuals. Family tree would be nice — but not sure if enough material can be gotten. Since the pictures are all about the people we visited, some kind of guide to the multitude of cousins and friends is desirable if possible with the allotted resources. The guide can then link to the family tree to put each person “in context.”
