

The date for your final exam depends on the section in which are you enrolled.

- Monday, May 4, 11AM–1PM (this is your time slot if you are in the 11AM section)
- Friday, May 8, 8AM–10AM (this is your time slot if you are in the 10AM section)

The exam will consist of two parts, both of which you will receive at the beginning of the period and you can work on both of them at the start. You may use your cheat sheet during the entire exam. However, you are not to use your calculator on Part 1. You may hand in Part 1 at any point, after which you are permitted to pull out your calculator and use for Part 2 (which you could have been working on from the beginning without a calculator).

Here is my advice to you:

- (a) Do as much of both parts of the exam as you can without the calculator.
 - (b) Next, go back and look at Part 1 and answer any questions you skipped.
 - (c) Hand in Part 1 and pull out your calculator to complete Part 2.
