Instructions

This questionnaire consists of several questions each describing a different scenario. Please read each question carefully, and then supply a numerical answer in the space provided. Please give exactly one answer to every question, as we cannot use forms with multiple or incomplete answers. This is not a test of knowledge or ability. Instead, we are interested in what you think should be done in each scenario given the information provided.

After you complete the questions, there is a final page requesting subject information. When you are finished, please put your form and pencil down and wait quietly. When everyone is finished you will individually and confidentially deposit your forms in the box in the front.
